Save time. Save money. Save effort.

TapeBuddy® Drywall Taping tools make finishing your drywall project easier, faster and cleaner

Save time. Save money. Save effort.

★ ★ ★ ★ ★

TapeBuddy® applies just the right amount of drywall compound directly to the tape so you don't have to premud your seams. You simply pull out the desired length of coated tape, cut, apply to the seam and smooth with your joint knife.

No more heavy, expensive equipment.
No Mess. No wasted compound.
No wasted time.

The pre-coated tape adheres easily to the seam and applies evenly to the wall, letting you achieve that professional look on a DIY budget.

"TapeBuddy saved me a lot of time and money. I have never done anything like this before and was able to use the TapeBuddy to get the job done." Paula

"Good product! Easy to use, quality construction, and a real time saver." Barbara

You're Done!

Apply to the seam and embed

TapeBuddy® - the simple solution for all your drywall finishing projects.

"TapeBuddy is one fantastic tool. It took me about 10 hours to completely tape a 1200 square foot house from start to finish and included cleanup. I would highly recommend this tool to everyone." Mike, Kansas City, Kansas
